FLAKE RAINBOW WHITE

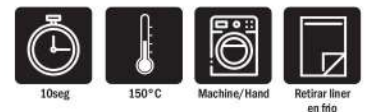

PU & CLEAR

El vinil textil imprimible PU es el material mas popular dentro de la gama de imprimibles. Es una película a base de poliuretano especialmente desarrollada para un tacto suave y durable con impresoras eco-solventes. imprimible transparente es bueno para imágenes de un solo color que no tienen fondo.

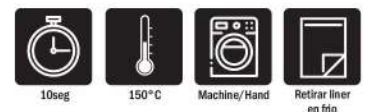

EP

El imprimible EP white es un material a base de pvc que se desarrolló para crear diseños rentables a todo color

GLOW IN DARK

El imprimible Glow in Dark es un material a base de poliuretano que arroja un suave brillo en la oscuridad

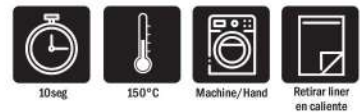

TRANSPARENT NM

Imprimible Transparent NM es un medio imprimible a todo color que no necesita cinta de aplicación para despegarlo de la película portadora de PET. La impresión en color se realiza en el lado de fusión en caliente en imagen de espejo y se puede pasar directamente al proceso de prensado en caliente en la prenda.

SUB BLOCK

Especialmente diseñado para bloquear completamente la migración del tinte. Este material evita que la tela base no se traspase y mantiene el color original y vivo en las prendas sin migración de color

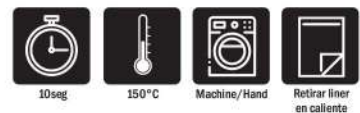

FLOCK

Imprimible Flock: material que proporciona un aspecto elevado y una sensación de terciopelo suave.

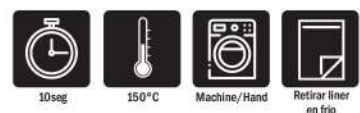

REFLECT

Imprimible Reflect: perfecto para fines de seguridad o alta visibilidad con reflectancia.

FLAKE

Imprimible Flake: copos de brillo texturizados y material a base de poliéster que puede crear una prenda brillante y brillante
